

Kid-friendly. Parent approved.

The staff at Wilson Medical Center's Women's & Children's Services has taken care of the Daniel family for generations.

Both Albert and Elizabeth were born at Wilson Memorial Hospital. And five years ago, these proud parents chose Wilson Medical Center as they started building their family.

"The staff makes me and my friends feel like the day our children were born is the most special day in their lives, too," Elizabeth says. "They do this every day. But they don't make us feel like they do. That's their secret. They make each of us feel special."
