

Ashley Hooks

HE'S GOT GAME.

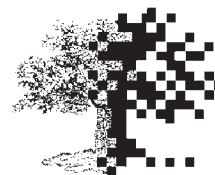

Thanks to Wilson Medical Center, Ashley Hooks is back in the swing.

After our orthopaedic surgeons performed a partial knee replacement on his right knee, Ashley participated in our Physical Rehabilitation Department's 'Par for the Course'.

Here, Physical Therapy Manager Eric Vergin videotaped Ashley to analyze his swing and determine the best exercises to make his body strong enough to perform a swing successfully.

Now Ashley's only handicap is finding enough time to play.

If you'd like to know more about how 'Par for the Course' or our orthopaedic surgeons can help you get back in the swing, call 252-399-8254 for more information.
